14th AicE-Bs2026Sokcho: Keynote Speaker

Professor Dr. John K. Lee President of KDU Global

Professor John Kyu Lee has been leading the global expansion of Kyungdong University since he became the President of Global Campus – KDU Global, in 2014. He is an Australian citizen with over 40 years of experience as a Vice-Chancellor and President of various higher educational institutions in Australia and South Korea.

John is an internationally well-recognized leader for setting the frontiers of International Higher Education. Under his leadership, KDU Global has launched numerous undergraduate degree programs in English medium in the areas of Business and Computing Technologies. Foreseeing the vast expansion of Korean culture and socio-economic integration of the country with the rest of the world, unique undergraduate, graduate, and training programs in Korean medium were also introduced for international students at KDU Global.

2024 commemorated KDU Global's 10-year Anniversary with significant milestones achieved under John's leadership. Between 2014 and 2024, the total number of international student enrollments at KDU jumped from just around 50 to over 3,500. International students from over 90 countries have enrolled at KDU Global. The undergraduate degree programs received various international accreditations and recognitions. Innovative degree and vocational training courses were founded in the areas of Artificial Intelligence, Media and Film, Cultural Immersion and Leadership, and Apprenticeships. The Graduate School of Business and Technology Convergence was founded at KDU Global!

With a new vision for KDU Global's internationalization, John also founded the Global Student Mobility Project (GSMP) to network prominent higher educational institutions worldwide under a common, collaborative academic umbrella. GSMP has rapidly expanded into over 40 countries providing students with unparalleled flexibility to experience new cultures, learn new languages, build networks, be exposed to the forefront industries, and most importantly, obtain internationally competitive and uninterrupted education.

John's contributions to the development and expansion of international education have been formally recognized in various parts of the world. He has been appointed as Honorary Rectors of universities in Kazakhstan and Indonesia. John has also been presented the highest Awards of Honor and Appreciation in Uzbekistan, Subcontinental Asia, and by the Governments of Latin American Countries.

Brief Profile

Prof. Dr. John Lee – President of KDU Global

- BSc (Physics, Korea University), MSc (Computer Science, Sydney University), ME (Computer Science, Yonsei University), and PhD (Computer Science, Sydney University).
- Founding President of the Macarthur IT college in Australia (1997-2004) – IT Undergraduate Courses in conjunction with Deakin University and James Cook University.
- Chairman of the KAITEC (Korea-Australia Information Technology Exchange Committee).
- Academic Research Director at Queensland University of Technology in Australia.
- Senior research fellow and Professor at Deakin University in Australia.
- Technical Advisor for the South African Government (Professor Lee pioneered the concept of implementation technologies and the network of Technology Innovation Centers between South Africa and South Korea, which laid the conceptual foundation for GSMP at KDU Global and GACC's around the world).
- Author of over 100 research and technical papers in the fields of Advanced Data Base Technology (transaction processing algorithms, concurrency control and recovery algorithms, hot spot handling algorithms), Algorithm Modeling and Verification, Software Engineering, Total Quality Management Systems (process, defect prevention and removal, quality modeling and tracking, metrics, project audit, project management, quality control and assurance, quality benchmarking) with extensive research funds from Australian Government, Australian Research Council and the industry.
- Leader of numerous successful international R&D projects including STARVIEW (a large-scale project in partnership with IBM Santa Teresa Lab, IBM Toronto Lab, IBM Rochester, and IBM Austin Lab focused on development of database utilities for DB2, SQL/DS and AS/400 and OS/2 Database Manager and Professor Lee was a Technical Leader - Design and Testing - for this project), OS/2 LAN development, and Master Plan for Software Total Quality Management System Marketing Tools Development Project (developed a tool based on OS/2 Presentation Manager to analyze and predict the marketing situations, sponsored by the IBM Asia/Pacific Headquarters).

- Developer of a Master Plan for Software Total Quality Management System for Samsung Data Systems Co.
- Project leader of three major research projects (ASTQM, Handling a hot spot for concurrent transactions, High performance transaction processing algorithm for mobile computing) in Australia.
- Technical adviser to Samsung Data Systems.
- 1996 IEEE CS Contribution Award.
- Open Research Award (1997) from University of Western Sydney in Australia.
- Invited keynote speaker in numerous scientific and educational conferences and events in Australia and abroad.
- Executive member of the IEEE Computer Society Asia/Pacific Activities Committee.
- Senior member of IEEE.
- Director of the Research Centre for Advanced Software Engineering and Technology at University of Western Sydney Macarthur in Australia (as recognition of his contribution, he was formally requested by the Vice-Chancellor for Personal Chair position).
- Secretary and a founder of the IEEE Yuforic.
